Sage CRM provides powerful tools to record, track and assign leads allowing your team accurately measure the quality of leads, effectiveness of the marketing campaigns and the ROI achieved.

List Management and Segmentation

With Sage CRM it is possible to create targeted lists of prospects and customers that can be used for sales calls/ mailings. Customer data and prospect lists can be segmented based on desired criteria such as interest or demographics via user-friendly tools. Sage CRM allows users to focus marketing efforts on prospects that are most likely to purchase, thereby increasing return on investment and maximising marketing budget and spend.

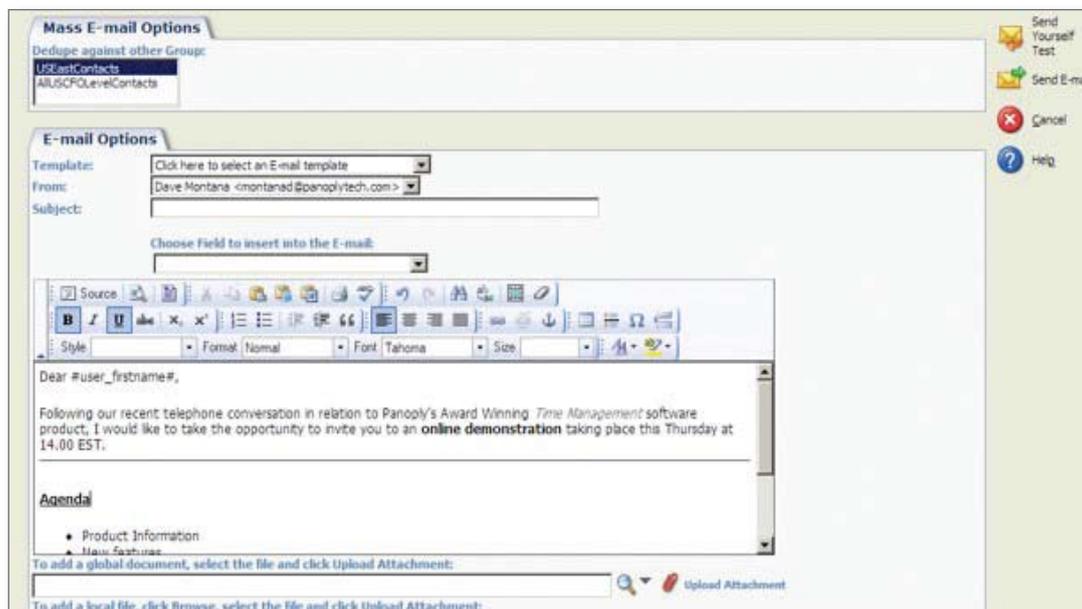

Sage CRM can be configured so that campaign responses trigger sub-lists for the next wave of the campaign, with successful responses moved to sales and non-responses kept on a reminder list (or removed if required).

Marketing lists can be recorded for future reference and Sage CRM provides the option to re-use successful campaign lists or import mail house lists. Detailed profiles of customers and prospects over the course of the relationship can be created and this information can be stored, reported and segmented for future campaigns.

E-mail marketing

Sage CRM provides the functionality to mass e-mail efficiently. Users can create e-mail templates, send HTML and attachments as well as store communications per campaign.

All communications are recorded to enable staff to review the exact e-mail message received by a specific user or prospect. Sage CRM provides enhanced formatting options for e-mails including a spell checker.

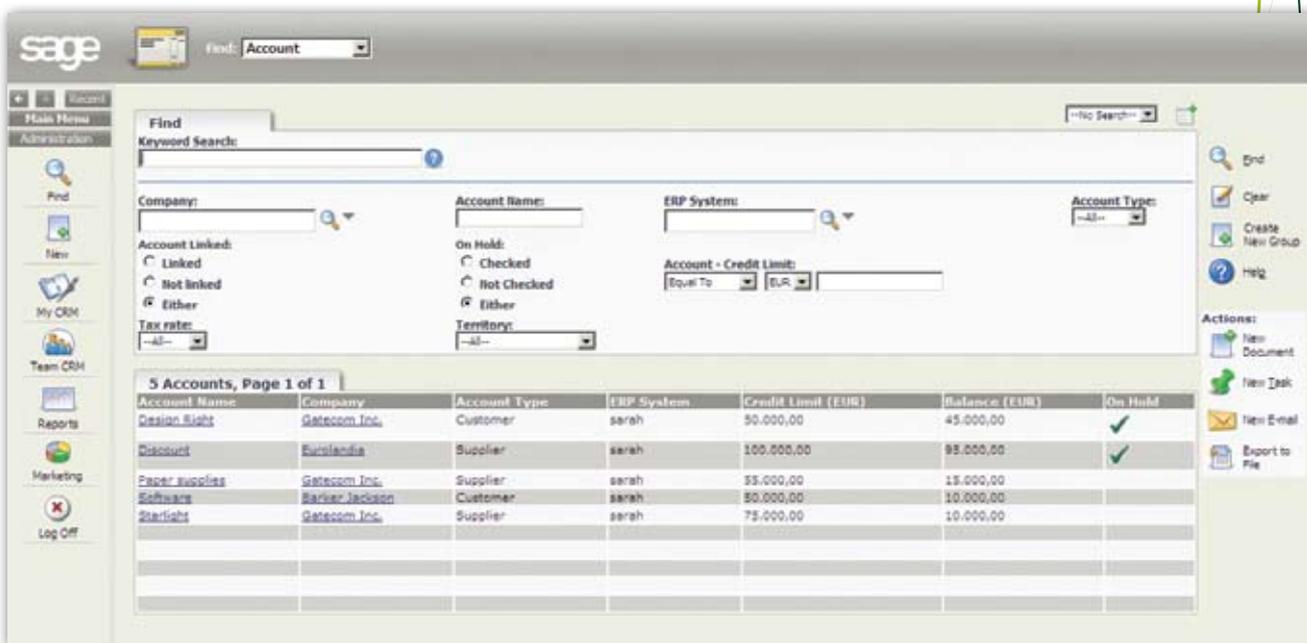

Creating highly visual and targeted e-mail campaigns is easy with Sage CRM.

Sage ERP Integration

Front-to-back-office integration between Sage CRM and Sage ERP systems allows marketing staff to leverage account information, enabling them to identify buying trends or suitable target segments. Access to financial information on customers, provides the marketing team with the ability to create marketing lists based on financial profiles and target customers with good credit ratings and purchase histories. Information from the Sage ERP system can be displayed on the interactive dashboard for quick and easy access, providing marketing teams with access to powerful customer data.

Return on marketing investment can be measured more accurately thanks to back-office integration. Integration between Sage CRM and ERP enables marketing staff to execute highly targeted campaigns based on customers' financial history and enables pin-point measurement of marketing RoI.

With Sage CRM and ERP integration, marketing teams can leverage financial information to target their most profitable customer.

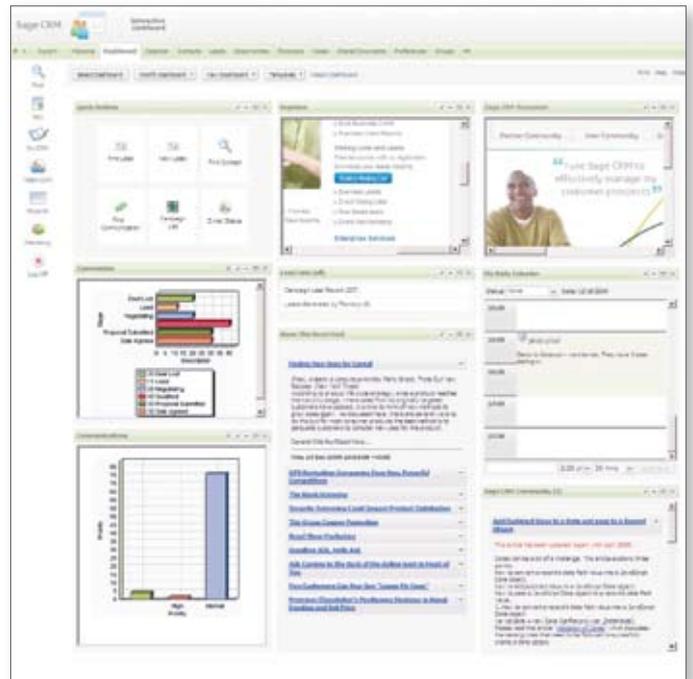

Reporting and Analysis

Sage CRM enables users to take control of their marketing budget by providing extensive planning and reporting tools across all levels of marketing activity. Leads, opportunities and closed sales are all associated back to their originating marketing campaign, so the direct revenue yield for each programme can be calculated accurately. Graphs, charts and reports can be generated and displayed on the interactive dashboard for quick and easy analysis.

The Interactive Dashboard

The interactive dashboard is an intuitive workspace from where the marketing team can view and monitor marketing campaigns and activities. A pre-installed marketing dashboard is available out-of-the-box or users can customise their own dashboard or team dashboard with content that is relevant to them and their role.

With the interactive dashboard, the marketing team can link to reports to track the success of marketing campaigns and activities. The dashboard also displays feeds from websites such as news monitoring which will keep them up-to-date with published news on their business and on their competitors. Users can also link to LinkedIn® and other social networking sites to identify networking and marketing opportunities with customers and prospects.

The marketing dashboard provides users with a single view of relevant and comprehensive marketing information for quick and ease of reference.
